

Parts Cleaning Conference at PMTS

For Immediate Release

Cincinnati, OH 4/6/21

Registration is now open for the Parts Cleaning Conference. Taking place in Cleveland, OH, August 10-12, 2021 and co-located with PMTS (Precision Machining and Technology Show). The Parts Cleaning Conference is presented by *Products Finishing*, *Production Machining*, *Modern Machine Shop* and the Manufacturing Cleaning Association.

The Parts Cleaning Conference is the place to stay up to date on the latest cleaning technology. Now more than ever it is vital for manufacturers to provide high quality clean parts. Register today, to learn how to provide the latest technology and stay within the environmental limitations. Each session will deliver in-depth details on how to provide the best service to your customers and stay within your budget.

Staying connected virtually has been nice, but nothing takes the place of face-to-face communication. You'll be able to network, interact, and ask questions with the industry experts. This is something the cleaning community hasn't been able to do since before the pandemic began. We're excited to bring the cleaning community together again.

Being co-located with PMTS means you will have access to the PMTS show floor, featuring cleaning exhibitors in addition to the precision machining exhibitors. You can also take advantage of the free educational sessions as well as Tuesday and Wednesday happy hours on the show floor.
